IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Patent Application of) Art Unit: 2674
Shunpei YAMAZAKI) Examiner: K. Nguyen
Serial No. 09/385,020)
Filed: August 30, 1999)
For: ELECTRONIC DEVICE WITH)
LIQUID CRYSTAL DISPLAY)

CERTIFICATE OF MAILING

I hereby certify that this correspondence is being deposited with The United States Postal Service with sufficient postage as First Class Mail in an envelope addressed to: Commissioner for Patents, Washington, D.C. 20231, on March 4, 2003.

AMENDMENT

RECEIVED

MAR 18 2003

Honorable Commissioner of Patents
Washington, D.C. 20231

Technology Center 2600

Sir:

In response to the Office Action dated April 8, 2002 please amend the above-identified application as follows:

IN THE CLAIMS:

Please amend claims 7, 11, 15, 19, and 23 as follows:

Sub
E1
DI

7. (Amended) An electronic device comprising:
a reflection type liquid crystal panel comprising an active matrix substrate and a counter substrate, said active matrix substrate having a plurality of thin film transistors and a plurality of pixel electrodes connected with the thin film transistors;
a light source comprising 3-color light emitting diodes arranged in delta for producing three primary colors for additive color mixing; and
a reflection plate located adjacent to the liquid crystal panel with the light emitting diodes interposed therebetween, said light emitting diodes and the reflection plate arranged horizontally with respect to the liquid crystal panel,
wherein white light emitted from the light source is introduced into said liquid crystal panel from sides of said counter substrate of said liquid crystal panel.
